Good monring Ed,

I've shared the WO google drive that contains much of the initial review information with Cally and Joshua:

<https://drive.google.com/drive/folders/0B1DOLxArbIPkRU5HbWJGb0hrUEE>

I have started a separate google drive with information that was sent this week to you and Sally Butts:

[https://drive.google.com/drive/folders/0B\\_oAJ91rEsZpVWFxTEtwTjZRekU](https://drive.google.com/drive/folders/0B_oAJ91rEsZpVWFxTEtwTjZRekU)

If anyone has trouble accessing the information please let me know.

Have a great weekend!

Matt, Thank you for all your legwork on this. Can you give Cally Younger (BLM) and Joshua Hanson (SOL) access to the share drive you set up. I will give you a call today. Ed

Hello Ed,  
Attached is a updated "Objects & Research Highlights" putting more meat on the Flora/Fauna.

I wanted to let you know that Sally Butts (NLCS) also called with a request for materials -- hard copies of the Management Plan, Science Symposiums, dinosaur books and the like. We will Fed Ex these materials in tomorrow's mail. I let her know that UTSO was also responding to a request.

Let me know if you need anything else.

Ed,  
Attached is a summary of some of the new research related to GSENM Objects since designation.

Also, I feel we can offer a little more information about the landscape feature data that is being used on the maps. I can work with Brian on it if you like.

I hope you find the information useful and please let me know if you need anything else.

When we get the mineral info we can produce a map with all four layers  
you requested. ed
